

BUCKS-MONT COLLABORATIVE MEMBERSHIP RECRUITMENT TALKING POINTS

Thank you for being an ‘ambassador’ for the Bucks-Mont Collaborative, and for your continued membership. As you share this membership opportunity with potential members, it may be helpful to reference some of the following points about the benefit of membership:

- The Collaborative has 75 members (and growing everyday) from across sectors, and across Bucks and Montgomery Counties.
- The Collaborative is an effective and efficient way to network with other organizations – through one membership, there is access to a wide geographic area across Montgomery and Bucks County.
- By fostering partnerships and collaborations, The Collaborative provides a forum for project innovation, and a system for learning about the opportunities that may be relevant to your organization.
- Shared resources include training opportunities, communication opportunities through the website, and powerful advocacy for non-profits and those we serve. There really is strength in numbers!
- Responsive programming and agendas mean The Collaborative is invaluable when timely community issues arise.
- There will now be an orientation and welcome process that will help new members make the most of the first months of their membership.
- Reflect on what you have found valuable in your membership, and highlight one or two of these ideas here.

Note: Members are encouraged to invite guests to one of our monthly meetings. Guests may attend up to two meetings before they join. There is a recruitment incentive program for employees of current Collaborative member-organizations in good standing who actively recruit new members.
