

What is DONAFY?

DONAFY is a smart phone app that will allow citizens to easily locate, notify and donate to nearby nonprofit organizations that service people in need of housing, food, medical care, mental health or job assistance.

- Notify
- Search

We Can All Be Philanthropists

- ✓ DONAFY gives citizens an opportunity to notify an organization that there is someone nearby who has a need of services with a special emphasis on sending a street team to a location for the support of street homeless.
- ✓ DONAFY allows every citizen to be a micro-philanthropist at the very moment they will be most compelled to give – when they come across someone in need of assistance, regardless of their immediate location.
- ✓ DONAFY is an important resource for those in need of services by providing a way to locate organizations in their area by allowing them to map their location and find nearby service providers or to search a complete list of all organizations featured within the app.

*** DONAFY is currently being limited to release in the City of Philadelphia.

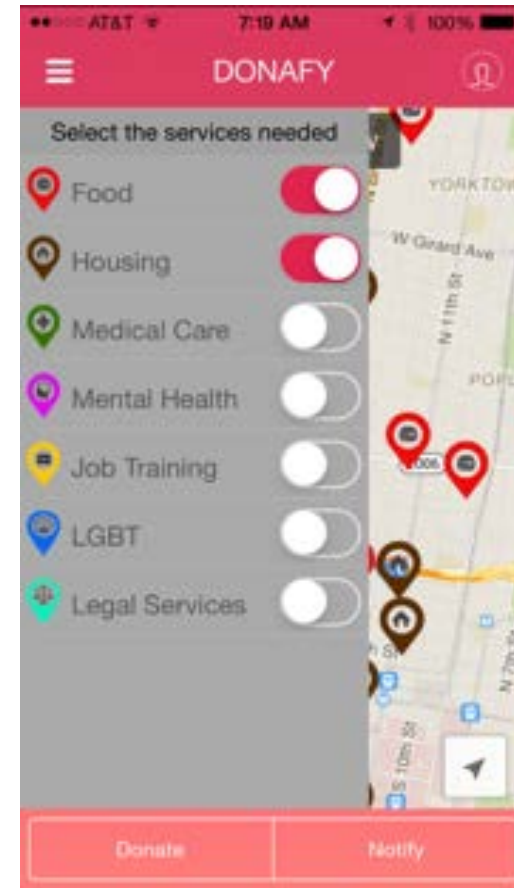

How Does it Work?

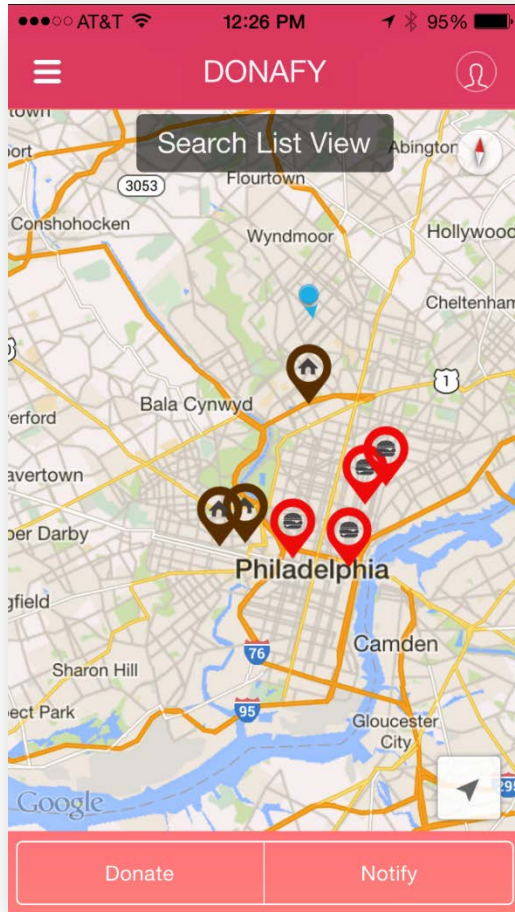

••••• AT&T 11:31 PM 12%

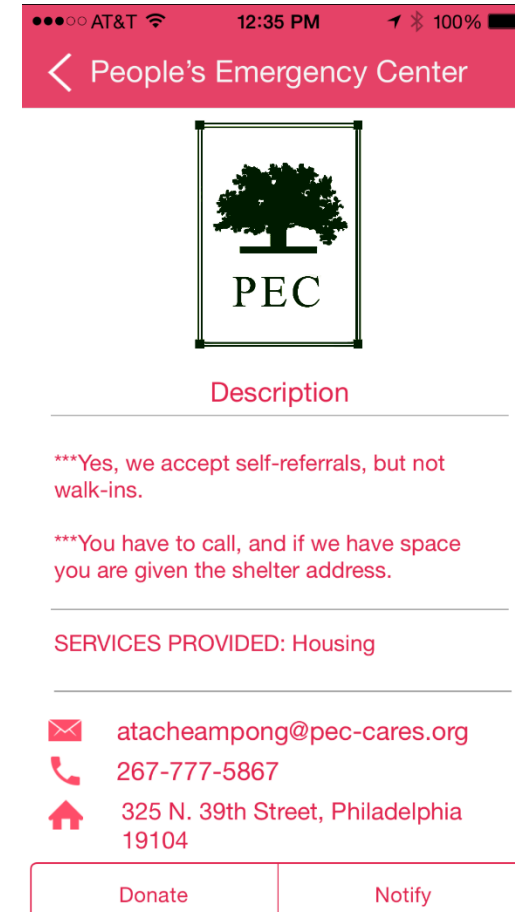

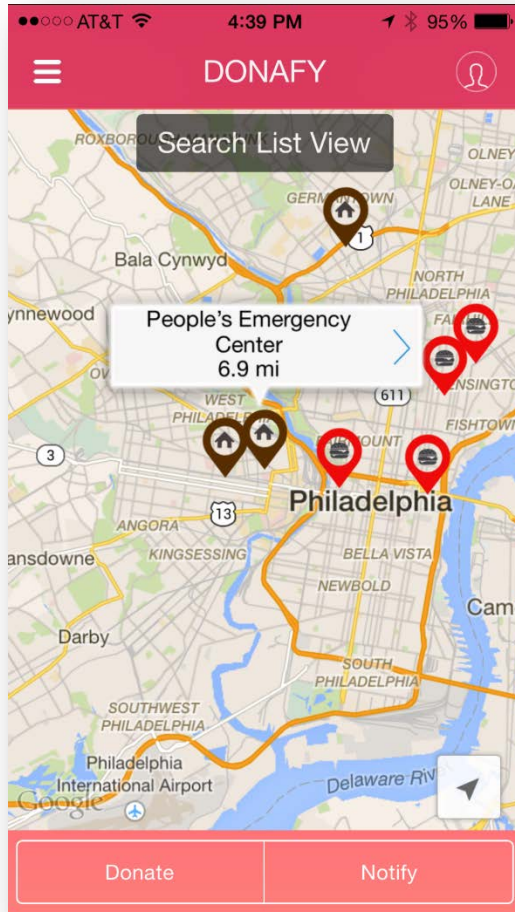

Remember Me [Forgot Password?](#)

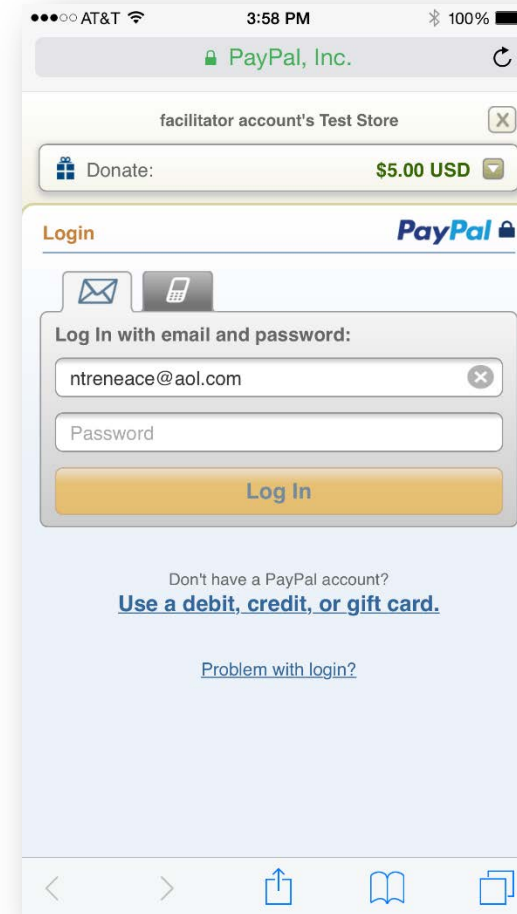

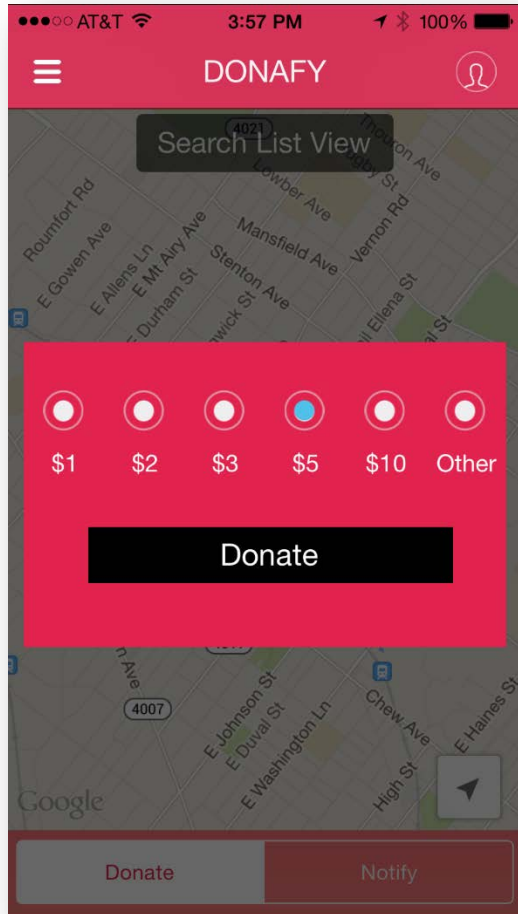

View organizations by either map view or list view.

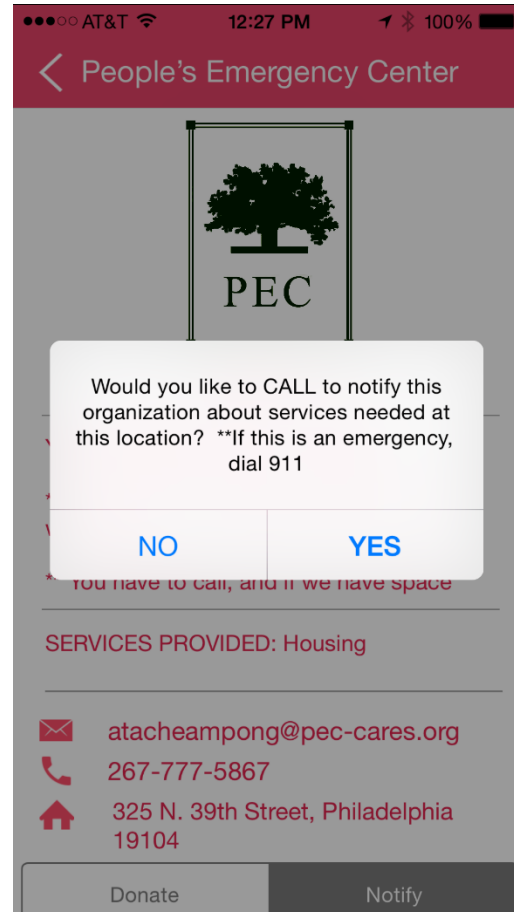

Notify of a need for services and Donate by GPS location or select an organization directly.

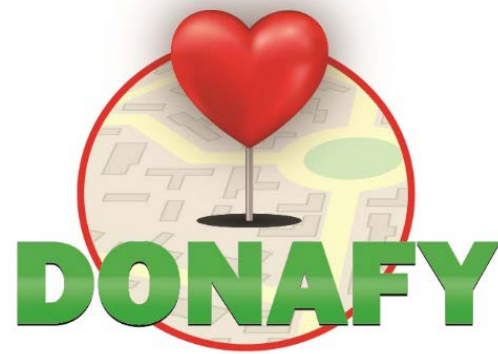

Donate an amount you choose, securely through PayPal, direct to the organization.

Help someone in need by Notifying an organization that someone at this location is in need of services.

Available for free download at the Apple App Store
